NOTICE

Klawock School Playground and Covered Play Area Closure

In an effort to reduce and slow any spread of COVID-19, Klawock School is closing the school playground, playground equipment, and the covered play area effectively immediately. **This closure will remain in effect until further notice.**

Klawock Schools realizes the importance of our students and children getting outside and exercising. Please consider other alternatives for these types of activities. Children can choose activities that avoid close contact with others, involve large groups, or require touching or contacting objects that may be unsanitary. Some examples: walking, jogging, bike rides, clean up yard, stack wood/move wood, fishing, jump rope, online kids exercise videos, etc. Stay active and stay safe.

Klawock School apologizes for this inconvenience, but the number one priority at this time is safety. By closing the school playground and covered play area, we are making sure no groups of children come in contact with each other to help reduce the spread of COVID-19.
