# RESCISSION (CLOSURE) OF BOIL WATER NOTICE

**The Klawock public water system is no longer on a boil water notice.**

The Department of Environmental Conservation (DEC) has formally rescinded the boil water notice issued on May 8, 2020. This notice was originally issued due to low chlorine levels at the entry point to the distribution system.

Adequate chlorine levels have been restored and a set of three total coliform bacteria samples were collected on May 11, 2020 with all sample results testing satisfactory (no total coliform bacteria were detected).

The effective date of the boil water notice rescission is May 14, 2020.

For more information, please contact the City of Klawock at (907) 755-2261 or the DEC Drinking Water Program at (907) 262-3423.
